Millikin University, BFA in art
More than 14 years experience in public and private sector

I am a Graphic Designer with CMS and IDOT. I received my degree from Millikin University in Decatur, IL where I later worked as their Sr. Graphic Designer and Art Director. My diverse graphic design employment background includes: SIU School of Medicine, Catholic Health Association of the United States and Franklin Life Insurance Company.

I keep my creative edge with photography, painting and drawing. Nature, the outdoors and my family recharge my batteries and clear my head which allow for my renewed, creative energy.
